Biking, writing & photography

## SUMMARY

Software engineer with 17+ years experience in the information technology field. Passionate about using my deep creative and analytical thinking for problem solving using my tireless tinkerer ability. Excellent team player who leads with empathy and understanding.

## EXPERIENCE

### Web Developer

*The Summit Lighthouse | 2017 - Present*

- Development of a web application using WordPress, Pods.io and custom code. The application tracks time reports, expenses, revenues and generates reports.
- Interconnect different web systems like Intercom, PieSync, Ontraport, Zapier, Zendesk using their corresponding APIs.

### Senior Internet Services Specialist

*The Summit Lighthouse | 2012 - 2016*

- Manager of the web team, advocate for driving digital transformation and web governance in order to help the organization succeed in this technological era.
- Architect-level vision and direction for organizational open source software such as Moodle and WordPress.
- Redesign of websites in order to create a better user experience, including look and feel, mobile friendly and restructuring of content.

### Computer Systems Analyst

*The Summit Lighthouse | 2009 - 2012*

- Design, development and maintenance of custom themes and plugins in WordPress for various organizational web properties.
- Implementation of first online course using Moodle. This started the success of multiple other initiatives with online courses in other branches of the organization.

### Software Developer

*Ministry of Agriculture, Livestock, Rural Development, Fisheries and Food of Mexico | 2005 - 2009*

- Development and deployment of inventory software at government headquarters and all the regional divisions using Microsoft Visual Fox Pro and Microsoft Terminal Server.
- Maintenance of software system that handles budgeting, accounting and treasury originally developed in Sybase Power Builder and Microsoft SQL.

### Software Developer

*Sinergia Computación | 2001 - 2005*

- Enterprise Resource Planning (ERP) software development for the automobile industry. This software was able to interact through EDI with trading partners such as Ford, GM, Volkswagen, Nissan, and others.
- Development of modules for a laboratory software for statistical graphs using COM to interface with Microsoft Excel.

## EDUCATION

### Bachelor's Degree in Computer Engineering

*Universidad Cuauhtémoc | 1994 - 1998*

### Private Pilot and Aeronautics Technician

*Escuela de Aviación 5 de Mayo | 1993 - 1994*
